### GLAMOROUS STATEMENT

The Sea of Lights<sup>®</sup> suspended fixture – amply decorated with Swarovski<sup>®</sup> crystals – is comprised of four dimmable 10-watt halogen downlights plus soft uplighting courtesy of 38 electrified wax candles. (The wax can be customized to meet any color scheme.) It measures 14" high x 22" wide x 60" long; additional sizes are available.

The Gallant<sup>®</sup> fixture, which measures 24" high x 26" wide x 60" long, is distinguished by a staggered array of 30 black and white candles. In addition, six dimmable 10-watt halogen downlights provide ambient illumination. It is shown here decorated with optional black and white Swarovski<sup>®</sup> crystals.

Both models are among the latest creations by lighting artist Stefan Dag.

### GUIDING LIGHT

The LED Nightlight series with light-directing integral louvers can be mounted vertically or horizontally depending on the clients' needs. It is ideal for hospital patient rooms, seniors' residences, extended-stay facilities, plus hotels and motels. The non-glare light consumes 5 watts per unit regardless of whether white, red/amber, or blue light-emitting diodes are selected. The contemporary low-profile appearance has no sharp edges and can be easily cleaned.

### HEALTHY ILLUMINATION

Perfect for spa and salon installations, these Himalayan salt lamps have been scientifically proven to increase the negative ion count in the air, helping to create a tranquil atmosphere. The product line is the result of company founder Richard Ori's personal search for natural relaxation techniques.
